Floor Trap

- The floor trap is manufactured in robust ABS and dimensionally complies with the relevant sections of standards BS 4514/EN 1455/EN 1451
- 50mm and 70mm deep-water seal providing maximum protection against seal loss due to evaporation and siphonage. Prevents possibility of foul air escape.
- Redesigned boss shoulders eliminate the use of adaptors for inlet connections.
- Can be used with both imperial and metric sized pipework.
- Accepts either plastic or stainless steel tile and grating.
- Simply extended by using 110mm plain ended pipe.
- The floor trap will not rust or corrode and is unaffected by domestic detergents.
- High temperature resistance.
- The unique design allows for the floor trap to be reduced in height when installed in shallow floor slabs.
