GLOBE

CLAMPS

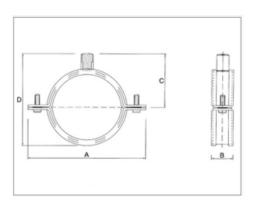

GLOBE - RUBBER LINED SPLIT CLAMPS

Construction Features

- Strengthened lock bolts for high load capacity
- Can be used for both horizontal and vertical installations.
- EPDM lining for suppression of sound and vibrations.
- Lock bolts with combi cross recessed head.
- M6 side screws with PE captive disc Unique Grooved Construction for added strength.

Technical Data

Welded Nut M8/M10 with option of M10/M12 Electrogalvanized 16 microns as per ASTM A 90-90M:1995 Safe and Break Loads as per Chart M6 Side Nuts can be provided on request
